Experience in the wine cellar

- :: Duration: 3 hours and a half. Start time: 10:30 daily except Saturdays (but including Sundays) Saturdays: 11:00h.
- :: Feel like a winemaker and create a complex wine. During the guided tour you will learn winemaking methods and in the underground stone cellar you will recognise the aromas and flavours which the oak barrels bestow on the wine during ageing.
- :: French or American oak? Learn how to recognize them and find out which you prefer. One of the features of Rioja wines is their complexity.
- :: We will reveal to you the secrets and then you can make your own blend or “coupage”.
- Includes:**
- :: Visit with Barrel Coupage experience + aperitif in the Cellar + tasting of 3 wines (Crianza Selección, Reserva and a Signature wine)

Experience in the vineyard

- :: Duration: 3 hours and a half. Start time: 10:30 daily except Saturdays (but including Sundays) Saturdays: 11:00 h.
- :: A 5 Km walk along paths bordered by vines and with the spectacular summit of San Lorenzo mountain as a backdrop to discover the traditional vineyard shelters built in the 19th century
- :: You will enjoy a wine and snack in the new Guardaviñas de David shelter constructed in the 21st century
- :: Guided tour and more wine tasting.

Includes:

- :: Hike + aperitif in the Guardaviñas de David + visit to the cellar + tasting of 3 wines (crianza Selección, Reserva and a Signature Wine)
- * **IMPORTANT:** Depending on the weather conditions the Wine Cellar will decide whether or not the activity will take place. If the weather makes it impossible to hold the hiking-experience, this will be replaced by the activity in the Cellar: “Visit-Barrel Coupage-Experience”.
